

IRRIGATION METERS AND SYSTEM REQUIREMENTS

1. Fill out sewer exemption form and pay sewer exemption fee of \$15.00.
2. All meters must be purchased from the Urbandale Water Utility.
3. Meter and Inspection Charges:
 - Standard 5/8” meter\$170.00
 - 3/4” meter.....\$210.00
 - 1” meter.....\$260.00
4. The customers shall be responsible for all plumbing changes.
5. All fees shall be paid before the meter is set.
6. Irrigation meters shall be installed not more than 4 feet from the house meter. There shall be a valve on each side of the meter.
7. All irrigation meters shall be teed off the service line before the house meter so that both systems are independent of each other.
8. All underground irrigation systems shall have an approved R.P.P. (reduced pressure principal) backflow device, comparable to a Watts 909 or a Febco 825Y. The backflow device shall be installed directly after the irrigation meter as shown below.
9. An initial test of the backflow device must be performed by a certified tester and a copy of the test results sent to the Urbandale Water Utility before the system can be activated.
